Tobacco Vote To Be Held

Fire-cured tobacco growers will vote in a mail referendum to be held February 19-23, inclusive on marketing quotas for the next three crops, James R. Ford, Jr., Chairman of the Appomattox County Agricultural Stabilization and Conservation (ASC) Committee, announced today.

Ballots may be returned to the county ASCS office by mail or in person anytime during the period February 19-23, but if in person, must be brought to the county office no later than 4:30 p.m., February 23 or if mailed, must be postmarked no later than midnight, Feb. 23.

Growers eligible to vote in the referendum are all those 18 years of age or older who were entitled to share in the crop, or the proceeds thereof, on a farm with a fire-cured allotment in 1972 provided that: (1) such person shared in the risks of production, (2) the crop was planted in a workmanlike manner for harvest. (If not harvested, then reasons for failure to harvest were for reasons beyond his control), and (3) if the crop was not planted, it was considered planted for allotment history.

For the 1973 crop of Virginia fire-cured tobacco, the Department of Agriculture has announced a total of 11,302 acres available for allotment. This compares with 12,203 acres available for allotment last year.

The decision to be made in the quota referendum can be simply stated," Mr. Ford said. "If quotas for fire-cured tobacco are approved by at least two-thirds of the growers voting, the present program will be continued for the next three crops with acreage allotments, price supports, and penalties on excess tobacco.

"On the other hand, if more than one-third of the voters disapprove quotas, there will be not marketing quotas, no penalties on excess tobacco, and no price support for the 1973 crop."
